# FIREBOXES MC - MC PLUS

## MC COMPACT FIREBOXES

Mod. MC 65/60 PLUS

Mod. MC 65/60 PLUS  
incl. ventilation mantle kit

### CHARACTERISTICS

- Airtight firebox: MC Plus version
- Structure: enamelled steel, closed firebox
- Firebox: in Aluker®
- Fire grate: in Aluker®
- Opening: door in enamelled steel with self-cleaning ceramic glass resistant up to 750 C°. Hinged opening, reversible
- Door profile: in painted steel
- Door handle: hide away and detachable
- Primary air: adjustable manually
- Secondary air: manual
- Tertiary air: fixed and preheated
- Flue outlet: top
- Fuel: wood
- Heating: natural convection, radiant and forced ventilation kit optional through Multifuoco System® or Multifuoco System Plus, ducting

### ACCESSORIES ON REQUEST

Multifuoco System® single with remote control  
(for all models)

Multifuoco System Plus ventilation kit single with  
LCD remote control (for all models)

Multifuoco System® double with remote control  
(only for MC Plus)

Multifuoco System Plus ventilation kit double with  
LCD remote control (only for MC Plus)

Warm air distribution accessories

Grilles and air vents

Fitting and accessories for hot air ducting for  
natural convection

Adjustable legs kit H 38-45cm

Legs kit H 38 cm for MC Plus

Combustion air kit and accessories

Removable handles kit

Ash vacuum cleaner

Pipes, bends, couplings for flue pipe

## MA SL FIREBOXES WITH RISE N'FALL DOOR

Mod. MA 263 SL

### CHARACTERISTICS

- Structure: enamelled steel, closed firebox
- Firebox: in Aluker®
- Firebox: in cast-iron
- Hood: in steel
- Opening: door in enamelled steel with self-cleaning ceramic glass resistant up to 750C°. Rise n'fall door, hinged opening for cleaning
- Door profile: in painted steel
- Door handle: in enamelled steel
- Primary air: adjustable manually
- Secondary air: fixed
- Flue outlet: top
- Flue damper: manual
- Ash pan: removable
- Fuel: wood
- Heating: radiant and natural convection

### ACCESSORIES ON REQUEST

Legs kit H 38cm

Leveling legs kit

Removable handles kit

Hob

Log retainer

Stainless steel grill

Combustion air kit and accessories

Edge profile

Ash vacuum cleaner

Pipes, bends, couplings for flue pipe

## MP PELLET FIREBOXES

Mod. MP 974

### CHARACTERISTICS

- Painted Steel structure with closed firebox. Slide out (mod. MP 6 - MP 7 - MP 9 - MP 11)
- Firebox: airtight on models MP 6 - MP 974
- Firebox: in cast-iron
- Burn pot : in cast iron or steel based on the model.
- Baffle: in cast-iron
- Opening: cast-iron door or in cast-iron / steel depending on model, self-cleaning ceramic glass resistant up to 750°C
- Door handle: hide away and detachable or in steel depending on model
- Functions: LCD remote control and Multicomfort settings, additional control unit
- Chronothermostat: standard with programming mode with 6 daily settings
- Smoke outlet: rear or side with optional kit, depending on the model
- Ash pan: removable
- Fuel: pellet
- Heating: radiation and forced ventilation as standard with Multifuoco System®, ductable. The vent for hot air ducting must be ordered separately.
- Installation: MP7 - MP 9 - MP 11 forced air via Multifuoco System remotable in a technical compartment, MP 6 Multifuoco ventilation and remote control unit in a technical compartment
- WI-FI Bluetooth management through MY PIAZZETTA: standard on MP 6 - MP 7 - MP 9 - MP 11; optional on MP 974
- Ash vacuum cleaner: standard.

### ACCESSORIES ON REQUEST

Front pellet loading kit depending on the model

Warm air distribution accessories

Grilles and air vents

Connection for right / left side for discharge depending on model

Plasterboard door

Combustion air kit and accessories

Wi-Fi module for Piazzetta APP

Edge profile cover depending on model

Pipes, bends, couplings for flue pipe

# FIREBOXES MP TH

## MP TH PELLET BOILER FIREBOXES

Mod. MP 973TH

### CHARACTERISTICS

- Structure: enamelled steel, closed firebox
- Firebox: in steel and Aluker®
- Boiler: in thick steel structure from 3 to 5 mm, weight 150 kg
- Closed expansion tank: standard
- Circulation pump and safety devices: standard
- Brazier: in refractory steel
- Opening: cast-iron door, self-cleaning ceramic glass resistant up to 750°C
- Door handle: hide away and detachable
- Functions: LCD remote control and Multicomfort settings, additional control unit
- Chronothermostat: standard with programming mode with 6 daily settings
- Flue outlet: left side
- Power regulation: automatic 16 levels based on the water temperature set
- Domestic Hot Water: standard version of ACS
- Fuel: pellet
- Heating: water heat exchanger

### ACCESSORIES ON REQUEST

Plate separator kit

Accessories for the connection to the water supply system

Water puffer tank - Boiler - Expansion tank

Kit for connection to the water supply system: pressure gauge, ball valves and unions

Combustion air kit and accessories

Wi-Fi module for Piazzetta APP

Ash vacuum cleaner

Pipes, bends, couplings for flue pipe

## Accessories

### PLATE SEPARATOR KIT - WITH 1 CIRCULATOR

ITEM	COMPATIBLE MODELS	CODE	EURO
 <p>Multifunctional hydraulic separator installable on the wall for dividing the flow rates and heads between the circuits. Inclusive of deaerator for separating and evacuating the air in the system, system safety valve and shut-off valves.</p>	All models	P08061000C	790,00
<ul style="list-style-type: none"> <li>Box dimensions L x D x H cm 45 x 16 x 50</li> <li>Maximum operating temperature °C 95</li> <li>Circuit maximum operating pressure bar 3</li> <li>Secondary circuit circulator mwc 6,5</li> <li>Connections Ø 3/4" M</li> <li>Plate heat exchanger power output kW 35</li> <li>Nominal voltage V 230</li> <li>Absorbed power W 60</li> <li>Circulator 1</li> <li>Plate heat exchanger yes</li> </ul>			

### HYDRAULIC SEPARATOR

ITEM	COMPATIBLE MODELS	CODE	EURO
 <p>Multifunctional hydraulic separator for dividing the flow rates and heads between the circuits. Inclusive of deaerator for separating and evacuating the air present in the circuit, sludge remover for eliminating impurities in the lower zone of the body and magnetic cartridge for blocking ferromagnetic impurities. Equipped with a manual relief valve and drain tap.</p>	All models	P08061050C	635,00
<ul style="list-style-type: none"> <li>Dimensions W x H cm 22,6 x 52,5</li> <li>Plumbing connections Ø 1" with F fittings</li> <li>Threaded body Painted steel</li> <li>Air relief valve body Brass</li> <li>Insulation mm 12</li> <li>Maximum operating pressure bar 10</li> <li>Fluid temperature range °C 0-110</li> <li>Maximum glycol percentage % 30</li> </ul>			

### THERMOSTATIC MIXING VALVE FOR DHW

ITEM	COMPATIBLE MODELS	CODE	EURO
 <p>Thermostatic mixing valve inclusive of fittings for DHW control. Keeps the temperature of the mixed water constant. Anti-scald system for blocking the flow of hot water in the absence of cold water.</p>	All models	P08061040C	95,00
<ul style="list-style-type: none"> <li>Dimensions W x D x H cm 14,1 x 4,1 x 14,7</li> <li>Plumbing connections Ø 3/4" with M fittings</li> <li>Valve body Brass</li> <li>Shutter Brass</li> <li>Springs Stainless steel</li> <li>Activation Manual</li> <li>Adjustment range °C 30 - 60</li> <li>Maximum operating pressure bar 5</li> <li>Kvs m3/h 1,60</li> <li>Max. inlet temperature °C 120</li> </ul>			

### ANTI-CONDENSATION VALVE 63°C

ITEM	COMPATIBLE MODELS	CODE	EURO
 <p>Anti-condensation valve 63°C to install on the system delivery. Recommended for connecting heat generators to puffers.</p>	All models	P08061030C	125,00
<ul style="list-style-type: none"> <li>Dimensions W x D x H cm 8,8 x 64</li> <li>Plumbing connections Ø 1" F</li> <li>Valve body Brass</li> <li>Cartridge Die-cast aluminium</li> <li>Sensing bulb opening temperature °C 63</li> <li>Complete hysteresis by-pass closing °C 10</li> <li>Fluid temperature range °C 5-110</li> <li>Maximum nominal pressure bar 10</li> </ul>			

# FIREBOXES MP TH

## Accessories

### CONNECTION TO HYDRAULIC CIRCUIT

ITEM	COMPATIBLE MODELS	CODE	EURO
 <p>Kit for connection to the hydraulic system comprising manometer, ball valves and fittings<sup>[1]</sup></p>	All models	N08019012C	185,00

[1] If the hydraulic connection kit is installed, a 1" fitting is used instead of a 3/4" fitting for connection to the system.

### VERSION 500 PUFFER WITH DOUBLE HEAT EXCHANGER

ITEM	COMPATIBLE MODELS	CODE	EURO
 <p>Technical puffer with double carbon steel exchanger. Double serpentine exchanger. 5 cm-thick rigid expanded polyurethane insulation.</p>	All models	P08061080C	1.840,00
<ul style="list-style-type: none"> <li>• Dimensions W x H cm Ø 75 x 162</li> <li>• Weight kg 180</li> <li>• Net volume lt 478</li> <li>• Upper / lower heat exchanger surface m² 1,3 / 1,9</li> <li>• Storage tank max. pressure bar 3</li> <li>• Storage tank max. temperature °C 99</li> <li>• Heat exchanger max. pressure bar 12</li> <li>• Technical water storage tank temperature °C 110</li> </ul>

## WALL FLUSH DESIGN

THE PRICE INDICATED IS ONLY OF THE SURROUND.

THE TOTAL PRICE IS CALCULATED ADDING THE PRICE OF THE SURROUND TO THE PRICE OF THE FIREBOX AND TO THE TRIMM, THE STEEL ELEMENTS KIT, THE HOOD OR TO THE COMPENSATION KIT PRICE.

Please double check if the compensation kit is necessary for the installation.

In the backing process the enamels of the majolica undergo a high temperature process, their fusion creates various kind of finishes on the surface.

Crazing, pitting and shading are the result of the fusion process and must be considered as characteristics of peculiarity of the majolica and of each enamel.

Hue variation among the elements of the surrounds is an inner characteristic of the enamel that during the backing process reacts in different ways according to the shape and flatness of the surface.

Customizing the majolica is possible with colors different from the ones indicated and bicolor versions, if possible. In these cases a 30% price increase must be applied.

For majolica customizations it is indispensable to check in advance the feasibility.

## Piazzetta informs

### Majolica

**CHARACTERISTICS:** in order to appreciate the characteristic, it is necessary to be informed on this prestigious material.

- 1) Aesthetic functionality: the inner steel or cast iron burner is surrounded by majolica shapes and colours.
- 2) As a source of heating: majolica, given its natural semi-refractory characteristics, it resists to heat by accumulating it and diffusing it into the ambient air.

It is easy to understand that the larger the majolica piece the more heat it can radiate. Therefore the few and large sizes of the majolica pieces are to be appreciated for the fact that they distribute heat into the room and over time.

The fabrication of large pieces of majolica necessitates a know-how only achieved through a long experience over years in the field. Just stop to think each it takes 12 to 15 days to make a single piece of majolica, with the manual expertise of a dozen or so qualified ceramic masters. Thus due to the long process and manual craftsmanship put into each piece of majolica made by Piazzetta is considered to be unique piece of art work and no two exactly alike.

Important to note that the finishes (the liquid suspension of minerals, finely ground, applied onto the biscuit, which bake to fusion temperature, create a either glossy or dull finish) which chromatically enhance and beautify the "biscuit" (a name given to clay after its first baking process), are all part of controlled chemical reactions which inevitably leave way to phenomena like crazing, speckles and shading... which are not to be considered defects on the majolica but add characteristics of peculiarity to the final piece.

**CRAZING:** manifests itself on the enameled surface or in crystallization in an intricate form of cracking more or less visible to the naked eye. This is due to the different dilatation coefficient between enamel and the particular semi refractory principals of the biscuit (not to be confused with other materials like porcelain, stoneware, vitreous, fire clay etc...). The crazing distinguishes and characterizes this type of majolica for its specific usage: to cover a piece of material that radiates heat throughout.

**PITTING:** is present on the surface of the enamel or the crystalline in the form of pinholes. It is caused by gas bubbles, in the enamel itself or in the biscuit, that emerge on the surface through the vitreous mass during softening.

**SHADING:** typical of red enamels, it shows as clouds of tiny black dots caused by the chemical reaction of iron oxide present variable in the pigment itself. They are formed during the cooling phase after firing.

Despite the complexity of the multiple and variable results given by this particular, hand made and hand painted product, Gruppo Piazzetta ensures the utmost care in the manufacture and quality control of all its majolica production, which true connoisseurs do not hesitate to define as authentic artworks.

**SHADE DIFFERENCES:** shade differences might vary according to the shape of the majolica plates even within the same production lot. The biscuit, its shape, and the firing temperatures of each single glaze create colour shades that make each majolica plate unique.

**CUSTOMIZATION:** customizing the majolica is possible with colors different from the ones indicated and bicolor versions, if possible. In these cases a 30% price increase must be applied.

For majolica customizations it is indispensable to check in advance the feasibility.

### DEFINITION OF RIGHT / LEFT SIDE FIREBOX

For any fireplace with option D (right) or S (left), it must be stated in the order which sided option firebox is being requested, where applicable: right or left see illustration below.

Point of observation determines the D (right) or S (left); the closed side, opposite to the glass side determines the side when the person is in front of the fireplace.

# GENERAL SALES TERMS AND CONDITIONS

## 1. SCOPE OF APPLICATION

- 1.1. All sales and deliveries of products ("Products") by GRUPPO PIAZZETTA S.p.A. ("Seller") shall be deemed to be made subject to these General Sales Terms and Conditions ("Conditions") and any contract ("Contract") entered into pursuant to Article 2 shall entail their full acceptance by the purchaser ("Purchaser").
- 1.2. Any derogation from the Conditions shall be valid only if expressly approved in writing by Seller. Unless otherwise agreed in writing, these Conditions shall always prevail over Purchaser's general conditions of purchase, regardless of when they are sent to Purchaser and/or when Seller receives the general conditions of purchase. They shall also prevail over any prior agreement between the parties, in whatever form, which shall be deemed conclusively terminated.

## 2. ORDERS AND ORDER CONFIRMATIONS

- 2.1. Contracts between Seller and Purchaser are concluded in the following manner: the Seller, upon receipt of a request for Products from the Purchaser ("Order"), sends its offer ("Order Confirmation"). The contract ("Contract") is concluded upon receipt of the Order Confirmation by the Customer.
- 2.2. Orders by Purchaser shall become binding on Seller only if accepted by issuance of the appropriate Order Confirmation.
- 2.3. Purchaser's Order may be revoked by Purchaser until Seller issues Order Confirmation.

## 3. PRICE AND PAYMENTS

- 3.1. Unless otherwise agreed in writing, sales prices do not include transportation costs and are exclusive of taxes and duties.
- 3.2. Seller reserves the right to request a revision of the price if increases in production costs (with regard to raw materials, labour, and other cost items) in excess of 5% occur during the period between the date of Order Confirmation and the date of invoicing.
- 3.3. Payments shall be made to Seller's domicile in the manner and within the terms set forth in the Order Confirmation and may be collected by Seller's agents only if expressly authorized in writing.
- 3.4. Any issuance of bills of exchange or other instruments of credit, if accepted by Seller, shall always be understood to be subject to collection.
- 3.5. Until full payment of the price, the Products shall remain the property of Seller, who may at any time claim their return.
- 3.6. In the event of non-payment, even partial, on the agreed due dates, for the sole effect of non-payment and therefore without the need for formal notification:
  - a) Late payment interest shall accrue in favour of Seller, from the due date for payment and until actual settlement, at the rate set forth in Article 2 point 6) of EU Directive 2011/7 EU dated 16.2.2011 on combating late payment in commercial transactions, or at the rate set forth in any implementing and transposing legislation that may be applicable in the future.
  - b) Seller may immediately discontinue any further supply even if related to other Contracts;
  - c) Purchaser shall be deemed to have forfeited the benefit of the term, with the consequent right for the Seller to immediately demand payment of the entire claim against it for all supplies made and not yet paid for.

## 4. DELIVERY AND DELIVERY TERMS.

- 4.1. Delivery terms, estimated at 30 working days from the date of Order Confirmation, are approximate in favour of Seller and are never essential.
- 4.2. Unless otherwise agreed in writing, deliveries shall be deemed Ex Works Seller's warehouse ("Ex Works" - Incoterms® 2020).
- 4.3. Purchaser acknowledges that any delay in the delivery of the Products with respect to the date specified in the Order Confirmation shall never give rise to compensable damages or termination of the Contract.
- 4.4. In any case, the delivery is subject to the punctual execution of the payments agreed and already due, even in relation to previous Orders.
- 4.5. Seller reserves the right to accept the request for delivery of partial Orders.

## 5. RETURNS AND COMPLAINTS

- 5.1. Any product returns must be authorised in writing by Seller; only if the Products are in perfect condition and unused will 70% of the net price paid by Purchaser be refunded.
- 5.2. Immediately following the delivery of the Products, the Purchaser is required to check the correspondence of the delivered Products with those ordered and to verify that they meet the agreed characteristics.
- 5.3. Purchaser is required to make any complaint or report any defects by communication ("Complaint") by e-mail to [info@gruppopiazzetta.com](mailto:info@gruppopiazzetta.com), with attached proof of the non-conformities and a copy of the delivery document of the Products, no later than 8 working days, under penalty of forfeiture, from the receipt of the Products (in case of apparent defect) or from the discovery of the defect (in case of hidden defect).
- 5.4. The notification of the defect must be accompanied by the simultaneous making available of the defective Products, with an indication of where they can be viewed; failure to make the Products available or a Complaint made in a manner that does not comply with the above will cause Purchaser to forfeit the Warranty.
- 5.5. In the event of a Complaint, Seller shall only be obliged to replace within a reasonable period of time those components found to be actually defective and/or lacking the contractual quality, or, at Seller's option, to grant a discount or replace the Product if the defect cannot be remedied. The refundability of the costs of transformation, disassembly and disposal of the Products, as well as the refundability of labour costs and indirect damages, loss of profit, and any additional item of damage is expressly excluded.

## 6. WARRANTY AND LIABILITY

- 6.1. Seller warrants only that the Products conform to the provisions of (i) the Order Confirmation and (ii) the Product Technical Specifications, to the exclusion of any implied warranties as to quality, functionality or additional features, including merchantability outside the Italian territory, where not expressly mentioned ("Warranty").
- 6.2. The Warranty is provided solely on the condition that the Products are installed, used and stored in accordance with Seller's instructions, recommendations and Technical Data Sheets and are regularly maintained by Seller or its Authorized Technicians.
- 6.3. The Warranty does not cover defects or damage related to installation, maintenance or service activities performed by Purchaser or any third party.

- 6.4. The Warranty covers only replacement parts for Product defective components or malfunctions; it does not include components subject to normal wear and tear and consumables such as seals, gaskets, glass parts, etc.
- 6.5. Unless otherwise agreed in writing, the Warranty shall be valid for the duration of 12 months from delivery of the Product to the Purchaser.
- 6.6. Seller reserves the right to provide end Customer with a specific manufacturer's warranty, conventional and additional to the legal warranty, with the content and for the period that Seller shall consider appropriate.
- 6.7. Seller shall be liable to Purchaser only within the limits of the Warranty, with the express exclusion of any liability for direct or indirect damage to persons or property resulting from the transport, installation, maintenance or use of the products supplied, or from their failure or defect, except where the exclusion or limitation of liability is not permitted by law.
- 6.8. In any event, Seller's liability shall be limited to the value of the sale price contained in the Contract.

## **7. SECRECY AND TRADEMARKS**

- 7.1. Purchaser acknowledges that all trademarks and all intellectual property rights relating to the Products, including but not limited to: patents for inventions, designs or models, utility models, trademarks of which Seller is the owner or licensee, know-how, technical specifications and trade secrets, data and information in any way registered or relating to such rights (collectively "IPRs") are the total and exclusive property of Seller and that their communication or use in the context of the sale or service of a Product does not give rise to any right or claim in respect of them on the part of Purchaser, even after the termination of any business relationship between the Parties.
- 7.2. Purchaser agrees not to engage in any activities inconsistent with Seller's ownership of the IPR, including but not limited to unauthorized alterations and modifications of the Products.
- 7.3. Purchaser will refrain from using and registering trademarks similar to and/or confusable with IPR; and will use Seller's IPR only in accordance with Seller's instructions for the purposes set forth in these Conditions.
- 7.4. Seller's trademarks may also be used directly by Purchaser for advertising purposes, but, in any event, only with Seller's prior written permission
- 7.5. Subject to specific written agreement, the Purchaser may use certain of the Seller's IPRs exclusively in accordance with the Regulations for the Use of Trademarks and Domain Names owned by Gruppo Piazzetta S.p.A., in order to promote the Products and their resale, including through the organization of exhibitions and displays. The use of the Products or IPRs of Gruppo Piazzetta S.p.A. for promotional purposes and for display is at the care and expense of the Purchaser, who agrees to hold the Seller harmless from any damage to the Products, property or persons, as well as from any third party claims.

## **8. PROHIBITION OF RESALE TO SANCTIONED PARTIES**

- 8.1. Purchaser shall not, directly or indirectly, resell, distribute, transfer or otherwise dispose of the Products or any of their components or spare parts to any entity affected by international sanctions or operating in a country blacklisted by competent international authorities.
- 8.2. Purchaser agrees to exercise reasonable control to ensure that any prospective purchaser or recipient of the Products or components or spare parts is not subject to international

sanctions or is not located in a blacklisted country. Purchaser will take all necessary steps to verify the compliance status of prospective purchasers or recipients before engaging in any resale activity and will promptly notify Seller in the event of suspicious orders.

## **9. WAIVER OF TERMINATION INDEMNITY**

- 9.1 In the case of repeat orders over time, Purchaser hereby expressly waives, as of now, any right or claim of a compensatory, indemnification or compensatory nature, for any reason whatsoever, including goodwill, arising out of the termination, for any cause whatsoever, of the relationship of purchase or supply of the Products.

## **10. APPLICABLE LAW AND EXCLUSIVE JURISDICTION**

- 10.1 Italian law shall govern the Conditions and any Contract, agreement or dispute arising out of or in connection with them. The Court of Treviso (Italy) shall be the sole place of jurisdiction for any dispute between the Parties concerning the stipulation of the Conditions, the Contract, its clauses, their interpretation, execution or termination, and any contract, agreement or dispute arising from or related thereto, with the express exclusion of any other potentially competent court.
- 10.2 Seller alone shall also have the right to sue in the court of the place where Purchaser is located or where the Products were or should have been delivered.

## **11. PROCESSING AND PROTECTION OF PERSONAL DATA**

- 11.1 Pursuant to and in accordance with Article 13 of EU Regulation no. 679/ 2016 ("General Data Protection Regulation - GDPR"), Seller and Purchaser declare that they have mutually informed each other about: the identity and contact details of the Data Controller; the legal basis, purposes and methods of processing of their respective data; communication and dissemination of personal data to third parties; the period of data retention; mandatory or optional nature of providing data and consequences of any refusal to answer or disclose them; the rights of the Data Subject and in particular the right to object to the processing of data concerning them and/or to obtain the cancellation, transformation, updating, rectification and integration of the same. By signing the Conditions, the parties mutually express their consent, where necessary pursuant to Article 7 of EU Regulation No. 679/ 2016, to the processing of their data in the aforementioned terms and limits. The Purchaser also acknowledges having fully read the aforementioned information notice.

The present price list annuls and replaces all preceding price lists. All products are packaged on non-returnable pallets. Prices are considered to be without VAT (government sales taxes). Gruppo Piazzetta S.p.A. reserves the right to modify and/or delete all printed material, if deemed necessary by Gruppo Piazzetta without any written or prior notice.
